

CS 320 – Team Project Self / Peer Evaluation Form

Your Name: _____

Your Team: _____

Evaluation Period (circle one): **MIDTERM** **FINAL**

[Required] What grade (out of 100) do you think your **project** should receive? _____ / 100

[Required] Rank your team members (including yourself) based on a combination of effort and results for contribution to your project (ties are not allowed). Also provide your assessment of each member's relative contribution to the overall project (out of 100%, where 100% is the sum of all team members' efforts). For example, for a 4-person team, if every team member made an equal contribution (unlikely), you would give each team member 25%.

Rank	Name	Relative Contribution (out of 100%)
1		
2		
3		
4		
5		

[Required] What were your main technical contributions to the project? List specific classes / features for which you have made significant contributions.

[Required] List the most important technical contributions made by each team member (other than yourself).

Name	Main Contributions

[Required] Add any additional comments about your team members and/or your team project below that may help further clarify your contribution to the project, your teammates contributions, and the overall outcome of the project:

[Required] Rank the team projects within your section, starting with the team that you believe has accomplished the most so far this semester. Also indicate whether each team exceeds, meets, or is below your expectations for what a successful project should be.

Rank	Team Name	Exceeds, Meets, Below Expectations
1		
2		
3		
4		

[Optional] Add any additional comments about your rankings / expectations for the team projects in your section below:
